

Chp 6

CO-4; SO-1; BL-1	d.	List the design goals of a firewall. What is the difference between an internal and an external firewall?	[5]
Q5 CO-4; SO-1; BL-1,2	b.	Describe the three logical components of an intrusion detection system (IDS). Describe the differences between a host-based IDS and a network-based IDS. How can their advantages be combined into a single system?	[10]
Q7 CO-4; SO-1; BL-1	a.	Explain the difference between audit review and audit analysis. What is a security information and event management (SIEM) system?	[10]
Q2 CO-1; SO-1; BL-1	a.	What are the key principles of security? Discuss various security mechanisms to achieve security goals.	[10]
Q5 CO-4; SO-1; BL-2	b.	Define firewall and explain in brief the different types of firewalls. What is the difference between a packet filtering firewall and a stateful inspection firewall?	[10]
Q7 CO-4; SO-1; BL-2	a.	Define a denial-of-service (DoS) attack. What types of resources are targeted by DoS attacks? What architecture does a DDoS (Distributed DoS) attack typically use?	[10]
CO4 ; SO4 ; BL-moderate	d.	What do you understand by trusted system? Discuss any three benefits of trusted systems.	
Q7 CO4; SO1; BL-moderate	b.	Explain the different types of IDS and the approach used for intrusion detection in each case.	[10]
